InventoryTrac Software

Manage your inventory with InventoryTrac, the complete inventory control solution from FlowTrac, designed to meet the needs of growing businesses. Track your inventory accurately, without being forced to conform to an inflexible, out-of-the-box solution. InventoryTrac has been designed to fit the needs of growing businesses in the retail, warehousing, and logistics fields.

InventoryTrac is a zero footprint, browser based software. You don't need to install any software on your equipment, and your InventoryTrac system can be accessed from any hardware capable of running Firefox, Chrome or Safari, regardless of whether that's an iPhone, a desktop, a laptop, or a tablet.

Stop relying on error-prone manual processes and get inventory tracking you can depend on! InventoryTrac offers a number of valuable features which will improve the efficiency and functionality of your inventory tracking system.

- Email Triggers
- Enterprise Security
- Requisition Approval
- Unlimited locations & Sites
- User friendly Dashboard

Take control of your inventory problems from start to finish by implementing InventoryTrac. FlowTrac employs highly trained account managers who are experts in software implementation and integration, ensuring that when you purchase InventoryTrac, you'll get exactly what your business needs to succeed.

InventoryTrac is designed to make integration with accounting and shipping software simple. It can be integrated with both FedEx and UPS software to allow your employees to print shipping labels with a single button press from within the InventoryTrac browser. It can also be integrated with Quickbooks, Microsoft Great Plains (GP), Sage, and other accounting software. By integrating your inventory tracking and accounting software, you can remove double entry errors and ensure a high level of accuracy for your business.

About EMS Barcode

The core of our business at EMS Barcode Solutions is building quality relationships. We believe that our strongest competitive advantage is in recruiting and retaining intelligent, passionate employees, who are treated as our very best strategy for success. In turn, our valued employees take care to cultivate the exceptional customer care you will quickly become accustomed to.

At EMS Barcode Solutions, the belief that "Service is Standard" is the heart of our relationships with

customers. EMS barcode consultants are empowered to make the decisions necessary to deliver exceptional customer service in every interaction. We vet and hand pick each software company we sell to make sure they meet the quality standards our customers demand. Call today to speak with one of our barcode consultants about your tracking needs.
